

COMPANY PROFILE

Jieyang City Helon Manufacturing Co., Ltd. is dedicated to creating high-end stainless steel cutlery using traditional hand-polishing techniques. Our founder, Mr. Li Shubin has over 20 years of experience in the hardware industry and has built strong relationships with suppliers and manufacturers in the cutlery industry. With his expertise and knowledge, we strive to continuously improve our production processes and meet the highest standards of quality demanded by our customers.

Helon's philosophy is rooted in leveraging the traditional advantages of cutlery in Jieyang City while also pushing for innovation and modernization. We aim to elevate the status of Chinese cutlery on a global scale and contribute to the enhancement of modern living through our beautifully crafted products.

Teamwork & Collaboration

We believe that only when the staff and the enterprise become one rope; the enterprise will be bigger, stronger and better; benefit each other and have sustainable and long-term development together.
