HANDCRAFTED IN TURKEY

C O L L E C T I O N

KAPKA recreates the soul of the packed and colorful dinner tables of our childhood where a diversity of delicacies would be served in enamelware pots and pans. Through its unique pieces, each of which is handcrafted by local masters using traditional methods, it brings us back together like the good old times.

With our two collections including playful illustrations of proverbs and lively colors we hope to stir your beautiful memories and be a part of the new ones.

RUMI DREAMS

Our new collection Rumi Dreams is emerged from our longing to enter the multilayered view of the life and universe of Jalal ad-Din Muhammad Rumi, one of the greatest poets and philosophers in human history. Rumi incorporated poetry, music and dance into religious practice. The collection is inspired by the moves of whirling dervishes of Sufism and revealed in the colors of sky and earth. To achieve this vision, we worked on the fluid form of blue, coral and white enamel and applied various moves to create a transitional flow. Food culture played a large role in the formation of collective Sufi identity as a social activity which is parallel to Kapka's emphasize on the table as a uniting divine experience.

MIND-POP

We took a journey to synthesize the past and current of pop culture and ended up creating the Mind-Pop series. Surprising designs popped-up at unexpected times - thus the name Mind- Pop! The patterns and forms used in these series have never been tried in hand-made enamelware before... Each one of the items are made using dipping and brush spattering techniques to bring the lively colors on to your tables. In this collection we also introduce “sahan” cooking pans, large salad bowls and sauce pots.
